The applicant agrees to build this road to the requirements set down by the TOWN OF EGG HARBOR.

1. Four rods right-of-way (66')
2. Roadway width 28 feet understood to be centered in the 66' right-of-way.
3. Surface width 22 feet with 3 foot shoulders.
4. Maximum grade 6-7-9 degrees
5. Maximum horizontal curve 7 degrees, 30 minutes.
6. The road will be visible for 350' at intersections.
7. Minimum 40' clearance of 66' right of way.
8. All trees, brush, stumps and debris shall be removed from construction site right-of-way.
9. All roads shall have eight inches of 1 1/2 - 3in. crushed stone and eight inches of 3/4in. gravel as a minimum for the full width of 28'.
10. In the case of a dead end, the cul-de-sac shall be the full width of 120' diameter to provide proper turn around for snow equipment and other vehicles.
11. All roadways shall be constructed so as to provide for drainage ditches, which shall be free and clear of any and all obstructions, and such drainage ditches to be constructed in compliance with all applicable roadway standards.
12. All plans, surveys, maps and individual title conveyances shall be turned over to the Town of Egg Harbor.
13. All roads must have a road maintenance agreement legally recorded.
14. All roads that are to be considered to be turned over to the Town of Egg Harbor will have to have 2 1/2 " of black top first.
15. All deeds to the road property shall be up to date and approved by the Town of Egg Harbor's attorney.
