

AT&T Fiber Update

Residents of the Town of Egg Harbor. After reaching out to Harrison Gorski, our sales associate with AT&T he gave me an update on the activity in the Town of Egg Harbor.

I have put together an outline as to the progress and what to expect.

(Pam Krauel, Clerk)

1. **Construction workers/trucks in your neighborhood.** This obviously signals that the work has started. From start to finish it will be from 3-6 months from completion.
2. **Flyer left on their door.** This will be in an envelope attached to a door hanger or in a door hanging bag. It will have contact information of one of my fiber coordinators to join the waitlist and they will be assisting with setting up the appointments upon completion. When they receive this door hanger construction is about a month from completion.
3. **Construction is complete.** Assuming they joined the waitlist, the assigned local fiber coordinator will call them to coordinate the appointment for individual installation.

Equipment provided - The device we provide is called a gateway. This doubles as a modem AND router, meaning no additional equipment is needed for the service to work and no fee to the home owner. However, if they do have their own router or wi-fi extenders, they can be used in addition or instead of the built-in router.

Fiber lines from road to home. There will be no fee up to the first 1000 feet.

Buried or arial – Harrison indicated he always say this to residents is that we would always prefer to bury our lines, the only reason we would not bury is if we couldn't because of previously buried lines, sheet rock concerns, HOA/community guidelines, topography of the area, etc. This is a long way to say "case by case" but for people specifically reaching out with this question, it is the simplest way to communicate why a burial might not be possible, and its not necessarily our decision.

Waitlist - It's extremely important to join the waitlist by calling the assigned local fiber. This contact information coordinator for your neighborhood will be on the letters left at everyone's door when the neighborhood is within 1 month of completion.

1. This helps us know how many technicians we will need to bring in so that installation appointments don't get backed up.
2. This also allows us to have easier access to address any situations or questions that may come up and resolve them faster, compared to if the order was placed online or through a call center.

3. Can also reach out to Harrison to get on the wait list or have any question. Contact information is below

Attached is AT&T's three Wi-Fi choices.

Harrison indicated this pricing is for new AT&T customers and is NOT a promotional price, meaning this cost will not unexpectedly increase by \$20-\$30 in a year or two like other providers when the "promotion" runs out.

For existing AT&T cell phone customers, they will receive an additional 20% discount off their monthly Fiber service when signing up. This also applies to anyone wanting to switch to AT&T for their cell phone service when they are signing up for Fiber.

Powerful Wi-Fi you can rely on
